Transfer requests may also be submitted electronically at *floridaswater.com*.

Persons who wish to continue an existing, permitted water use and who have acquired ownership or legal control of permitted water withdrawal or diversion facilities or the land on which the facilities are located must submit a request to transfer the consumptive use permit (CUP) in accordance with Rule 40C-1.612, F.A.C. Although the use of this form is not required, it can facilitate transfer of the CUP.

If you wish to change the permitted authorization (e.g., change project acreage, use type, or any activity authorized by the existing CUP), please be advised that a separate modification of the CUP will be required. The transfer of a permit does not relieve the new landowner from obtaining any necessary federal, state, local, or other District authorizations.
