Good afternoon, Commissioner LaRosa,

I am an owner on the Southend of Fort Myers Beach. Can you please use your considerable influence with FP&L to expedite connecting power to the 7-11 gas station on Estero Blvd on Ft Myers Beach. Once this station receives power it will be able to open as the ONLY gas station on the island. It has been 16 months since the island was devastated by Hurricane Ian and now that some of the island has recovered, the traffic has returned. It often takes over an hour and a half to travel from the 7-11 to the Matanzas Bridge to leave the island. Needless to say, it can be nerve wracking to be in that traffic without a good amount of gas in the tank.

FP&L was incredible in their immediate response to the storm, but it now seems commonplace for businesses and residents to wait months and months to have service restored. I ask for your help in keeping the recovery of FMB a priority with FP&L.

Respectfully,
Owner on Southend of Fort Myers Beach
