Good afternoon,

Please place the attached emails in Docket No. 20240032. Thank you!

Hannah E. Branum
Executive Assistant to Commissioner Clark
Florida Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 32399
(850) 413-6004

Subject: Docket # 20240032

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

This letter is to confirm that I did not request sewer service to 9274 Little Gasparilla Island or in any way approve of this private, for profit sewer service. I am asking that you deny EU's application for waste water service due to the timing, expense and easement issues.

At this present time my electrical lines have been on the ground since Hurricane Ian. Our road has been destroyed by heavy equipment by contractors which repair relies on the homeowner. Repairs to my damaged uninhabitable home is still in progress along with fighting insurance company. Many of my neighbors are still uninhabitable, awaiting repairs or a rebuild, even docks. Out of pocket expenses for repairs are triple the mainland prices causing more out of pocket expenses. Sewer prices are unrealistic too. The added expense of the sewer service and keeping it maintained preventing sewer back up (which is more damage) is daunting. Hard to keep anything electrical running at LGI. Workers have to be personally brought back and forth to LGI for repairs. Debris removal is expensive and we do not get help from the county for trash removal or have available containers near. Water service to date is unpredictable, causing pink film in toilet water and has a dirty color. So how can a sewer system be maintained privately? Drinking water is brought from the mainland which is an added expense. Right now there is a wait list to even get your septic pumped, and price includes barge and added expenses. Triple mainland prices. The septic company said that for future pumps the easement would have to be cleared from the over growth of trees that property owners have planted into the road easement that no one governs. Easements that are platted should not be the expense of all homeowners to clear.

Please do not allow this docket to pass. Especially as a private – for profit endeavor until further environmental testing and infrastructure is in place at the expense of the private owner requesting this septic to sewer application.

Maybe the commissioners can take a field trip to the island to understand my concerns before voting on this Docket #20240032-SU.

Please hear our concerns and issues,

Carol Speyerer

Dear Public Service Commission Clark,

The only information I have is a legal notice from Environmental Utilities, LLC... catchy name intended to gain favor, I'm sure. I prefer to call it what it is, a legal notice from private citizen Jack Boyer.

I was raised to know the difference between right and wrong and when something sounds wrong, it probably is. Why on earth would a private individual, in this case Jack Boyer, think he can send me some sort of unsolicited legal notice telling me what he is going to do on my property and no mention of how much I'm going to pay him to do it (initial and continuing costs)? Jack has never approached me with his idea. He has not asked me for my support, he has not showed me his plan, he has not requested my permission for access to my property, and he has not told me it was going to cost me anything. **Importantly, he has not told me why he thinks I need his service. Just as importantly, Jack makes no mention that he is responsible for removing my current service if his service is forced upon me.** Note: my septic permit, #08-SM-944053, is dated 02/21/2024, it is a brand new system. Everybody is entitled to their own opinion, and I'm sure Jack has his, but I too have a right to my opinion and as it stands now, I have no reason to believe I need Jack's service.

Jack is proposing nothing more than a massive tax on my property for a service I do not need. Is this even legal? The free state of Florida needs to see Jack's plan for what it truly is, a private individual looking for financial gain at the expense of private property owners who are not asking for his service. Therefore, I call on all Commissioners of the Public Service Commission in the free state of Florida to shut Jack Boyer's plan down IMMEDIATELY.

Respectfully,

Ray Purdy, Maj, USAF, ret
