To whom it may concern at the PSC,
I write this email as I join in solidarity with my fellow Palm Island residents. We on Palm Island (also known as Don Pedro Island) have no interest in public sewers. They will be outrageously expensive, they will disrupt our island for a very long time as they are installed, and the ongoing expense to deliver this public service will continue to hit us in our pocket books forever. We take great care to maintain our septic systems, and to protect the integrity and cleanliness of our beautiful private island. We feel the public sewer is a power grab to collect more \$ from us, , raise our taxes even further, and allow government to slowly remove our ability to protect our island and maintain is as it was designed. It is a bridgeless barrier island accessible only by car ferry. There is no public beach. There is no public park. It is private and quiet and we like it that way. We do NOT support this sewer project, we do NOT want to pay for it, and we don't need it!!!
No THANK Y O U.
