To whom it may concern, I am a home owner on this island house #8550. I strongly oppose the proposal. We do not require sewers, adequate septic systems prevail. The physical trauma and costs of sewer installation on this tiny island are not warranted. The sewage handling capacities on the mainland are already stressed without adding to it. My recommendations are more timely inspections of on island septic systems and restriction on number of renters per unit. Kind regards, Daniel McMaster : cell 9055417578 Sent from my iPad
