**Subject:** RE: Docket #20240032-SU

Good Afternoon, Steve Egan.

We will be placing your comments below in consumer correspondence in Docket No. 20240032, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Dear County Commissioners,

We received notice that once again Environmental Utilities, LLC is trying to force an unwanted sewer system upon the residents of Little Gasparilla Island. How could this come up again so soon after the PSC ruled against it? There are so many questions that have not been answered.

Where is the need? Have the residents asked for it? I think it was established last time that EU is not a company that should be taking on a project of this scope, neither economically nor professionally. Have they been vetted by any government entity? What is the financial impact on

individual residents? What happens if something goes south? Has there been any environmental impact studies? What about the impact to federally protected wildlife like gopher tortoises or bald eagles (we have a nesting pair on our trail).

Commissioners, please listen to your constituents. We do not want this. Between taxes & insurance it is hard enough to afford a place out on that island. Now we have to pay a law firm again to fight this.

Respectfully,

Steve Egan  
8270 Little Gasparilla Island  
Placida, FL 33946
