Good afternoon,

As owners of 8522 and 8526 Little Gasparilla, we have recently been made aware of the application by Environmental Utilities, LLC to connect the island to a central, low pressure Septic to Sewer system. We strongly oppose the system as proposed and encourage you to deny the application. As proposed, it appears to be the worst of all possible solutions. I believe that Sarasota County has already looked into this issue and decided to suspend septic to sewer conversions at least until the conversion to a central Advanced Wastewater Treatment system.

Please deny this application. Thank you.

Best regards,

Paul Madsen and Judy Cornelius
