COMMISSION
CLERK

To whom it may concern -

I own 33 Bayshore Circle on Knight Island as my full time home. I am vehemently opposed to having Environmental Utilities L.L.C. getting permission to install wastewater lines on our island. My septic system is inspected 3 times a year by Martin Septic Systems and Charlotte County. My septic field was rebuilt 3 years ago at a cost of \$14,000.00. We have struggled to recover from Dan with repairs and insurance claims ongoing. It would be difficult to have the expense and aggravation of the proposed sewer lines on our island. It is my understanding that the principal officer of Environmental Utilities is totally unqualified to undertake this project since he has 0 experience. Please do not allow this application to be granted.
