**Subject:** RE: RE. Docket #20240032-SU

Good Afternoon, Janice Schroder.

We will be placing your comments below in consumer correspondence in Docket Number 20240032 and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

*Toni Hover*  
Commission Deputy Clerk I  
Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, FL 32399

## **I am opposed to the sewer proposal by Environmental Utilities, LLC**

My name is Janice Schroder.

I live on Little Gasparilla Island.  
I have a septic system.

It works fine.

I do not want the proposed sewer system, which is substandard to the septic system I have and own. It will require more work and money to maintain than my current septic system.

It will force me to pay a high price to “hookup” and then an expensive monthly fee.

It will force me to purchase a generator, since the proposed system is electricity dependent. Without electricity, putrid contents could leach out into the open. Consider how this would attract rats and disease.

It will tear up my personal property, including my vegetation. Who will replace and return my property to its pre construction state?

On Little Gasparilla Island, we use electric golf carts to haul our groceries and supplies from the docks to our homes.

Electric motors are located underneath the carts.

Many carts will not survive the mud, trenches and puddles from the construction. This will add another layer of frustration and expense to islanders.

As a community, we are still rebuilding our beautiful island to the way it was before hurricane Ian hit us so hard.

The sewer construction will tear up our entire privately owned island and ruin our fragile roads. Who will rebuild the roads?

I believe, for many, it would be devastating, both emotionally and financially, to deal with the negative impact of this proposed construction.

This bad idea has been turned down by islanders once before.  
How many times do we have to say “no”?

I request that the PSC **deny EU’s application for wastewater** service.

Thank you for your attention to this matter.

Sincerely,

Janice Schroder
