Dear Board Members,

We again object to the EU application for a variety of reasons. First of all we thought this was settled business. How many times do we all have to go through process, every two years?

If and when Charlotte County determines that there is a definite need for city sewer service on our island then Charlotte County should provide it and not abdicate their responsibility to the citizenry by passing it off to some opportunist with a solution looking for a problem to solve.

What makes EU qualified for a project of this magnitude. If in fact a sewer system is deemed necessary why not solicit bids from companies that actually have experience and a track record that we all can look at so we can make an informed decision.

In conclusion this sewer proposition is something that the vast majority don't want, it has yet to be determined necessary, and if it is Charlotte County should be the entity that provides it.

Thanks for listening,
