Subject: RE: RE. Docket #20240032-SU

Good afternoon Jordan and Amy Schlandt,

We will be placing your comments below in consumer correspondence in Docket No. 20240032, and forwarding them to the Office of Consumer Assistance and Outreach.

Best regards,

Charlie Smith II

Office of Commission Clerk
Florida Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 32399-0850
850-413-6770

PLEASE NOTE: Florida has a very broad public records law. Most written communications to or from state officials regarding state business are considered to be public records and will be made available to the public and the media upon request. Therefore, your email message may be subject to public disclosure

To whom it may concern,

My wife and I are owners and full-time residents of Little Gasparilla Island. We absolutely oppose the proposed low pressure "sewer" system and the idea that Jack Boyer and company and his greed should be allowed to be mandated to us. I have worked on pumping systems for over 20 years and have spent a lot of time in leachate pumping, transfer stations, lift stations, and the plumbing, pumps, motors, and controls for these systems. This system is a terrible idea for our island. It will not have the manpower, cost effectiveness, redundancies, oversight, or common sense for this specific place. I cannot even believe that after Ian and a lack of power for weeks this is still even in question, not only that, reliable systems in this environment and labor are incredibly expensive and a lot of that will go to Jack's wallet and unproportionally benefit him to an obscene

amount. The county and state continue to mandate extremely expensive private industries and geographical monopolies and that in itself is simply anti-American and anti-free market. The county and state do little more than take our taxes and mandate private industry to us. We have no mainland parking, boat ramps, trash or any service that should be provided by our tax dollars, yet here we are arguing about another obscene mandate to truly only benefit 1 company and leave the homeowners with a massive bill, a bad system, and more destruction on our fragile island.

Jordan and Amy Schlandt
