Re: Docket #20240032-SU (open) - Application for certificate to provide wastewater service in Charlotte County by Environmental Utilities, LLC.

Dear Florida Public Service Commission members:

I am writing to you, as a property owner on Little Gasparilla Island, to express my concerns regarding the application referenced above submitted for your consideration by Environmental Utilities, state my objections to their application and urge you to deny their request.

I have 35 years' experience with government funded utility infrastructure projects. I am not sure how a proposed project of this scope would be considered without a more thorough process.

I have the following concerns regarding the current scenario:

- No notice to concerned parties

As a property owner on Little Gasparilla I did not receive a notice as to this proposed project.

- No Need

As an Owner of a condominium unit at Hideaway Bay Beach Club I am not aware there is a need for this project for our association. We have a functioning, reliable sewage treatment plant that is managed by an experienced and licensed service provider on a regular basis.

- Lack of petitioner sewage license or experience

I am not aware that Environmental Utilities has a license or any expertise in Sewage treatment management.

- Not fair and Equitable proposed fees

The proposed fees would make the sewage treatment expenses the highest in the state of Florida for a service we do not need.

Please let me know how I can be added to the notifications list related to these proceedings.

Thank you in advance.

Martin and Janet Mueller
