Re: Docket No. 20240032-SU Application for certificate to provide wastewater service in Charlotte County by Environmental Utilities, LLC.

To Whom it may Concern,

The residents of 262 South Gulf Boulevard oppose the installation of centralized sewers by Environmental Utilities, LLC for the following reasons:

- We have a perfectly functional septic system that is in good condition. This system is maintained by us and is in good working order.
- Environmental Utilities, LLC has no proven experience installing or running a Utilities company, so we have no information regarding the performance of this firm.
- No rates have been publicly released, we have no information about the costs that will be imposed on us for services supplied by Environmental Utilities, LLC. We understand this utility company will be a private, for profit company.
