Subject: RE: Docket# 20240032-SU

Good Morning, Frank Guagliardo.

We will be placing your comments below in consumer correspondence in Docket No. 20240032, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover
Commission Deputy Clerk I
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, FL 32399
Phone: (850) 413-6467

PLEASE NOTE: Florida has a very broad public records law. Most written communications to or from state officials regarding state business are considered to be public records and will be made available to the public and the media upon request. Therefore, your email message may be subject to public disclosure.

Subject: Docket# 20240032-SU

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Good afternoon,

I, Frank Guagliardo, and my wife Joann are homeowners of several properties on Little Gasparilla Island (LGI) which is in the proposed service area in Environmental Utilities (EU) central sewer proposal.

We formally request that the PSC deny EU's application for original certification of authorization for this proposed central sewer system.

We strongly object to EUs proposal and application for certification. We request an administrative hearing be held before a ruling on the application. We also request status as a Party of Record so that we can participate in legal proceedings.

We as homeowners do not need this service or request this service.

We have many concerns regarding this proposal. We are retired seniors who have been homeowners of LGI for more than 20 years.

-First and foremost we invested in our current septic system which has served us very well throughout the years. This new proposed system is not needed and very expensive and adds additional burden for us as homeowners.

-It is our understanding that the connection charge of this system is estimated between \$13,000 to \$20,000 per homeowner and monthly cost estimated at nearly \$200. An electric panel separate from our home will also be needed with additional cost.

-We as the homeowner will also need to invest in a generator to avoid sewage back up in the event of power outages. This is very concerning as power outages occur frequently on our island. Also, Hurricane Ian in 2022 was devastating for our island. We are still recovering from this major hurricane with our home still in repair.

-Another concern is that we have current dealings with this owner through Little Gasparilla Water and there are constant issues and unnecessary costs with extremely high base fees as well as usage fees.

We thank you for the opportunity to voice our concerns and urge you to deny EU's application.

Sincerely,
Frank Guagliardo
