Dear PSC Member,

I can understand the need to raise rates on an occasional basis due to many market factors. What I do not understand is how TECO can justify an increase to their guaranteed rate of profit. They are a monopoly, so we consumers have almost no control over TECO's pricing.

The one means of control we do have is the Public Service Commission. It is your responsibility to ensure that consumers are not paying TECO an unfair rate of return.

I urge you to carefully consider the impact of a rate increase on Florida residents, particularly the most vulnerable among us. With the rising costs of living, including healthcare and housing, a hike in utility rates would decrease our quality of life.

I ask that you prioritize the interests of consumers over corporate greed and reject TECO's proposed increase to the return on equity and fixed customer charge. This is pure profit that customers should not have to pay for. Now more than ever, it is crucial to ensure that essential services remain affordable and accessible to all Floridians.

Thank you for your careful consideration to this matter.

Sincerely,

Robert Meyer
