Please do not allow another rate hike for Duke Energy. We can't afford to live in Florida anymore. It is wrong for Duke to socialize their costs and privatize their profits. We are all sick of it.

I am a senior citizen and homeowner living in St. Petersburg. I am opposed to Duke Energy's rate hike proposal, which would raise our rates by around 27% over three years. They do not need a guaranteed profit of 11.5% when the national average is 9.71%.

Our Public Service Commission needs to represent and advocate for all Florida citizens.

Thank you,

Edward McBride
6300 4th Ave S
St. Petersburg, FL

They are seeking approval for an \$820 million increase from the Florida Public Service Commission (PSC). Here is what Duke is asking: Raise rates by 27% over the next three years, this is a \$16.48 per month increase in 2025 alone. Increase their guaranteed profit (return on equity) to 11.5%, well above the national average of 9.71%.

Hello, I just heard of this rate hike Florida and Duke energy wants to do to all of us again, I for one can fairly afford to run my air conditioning I live pay check to pay check and cannot afford another hike we need to do something about this, so. Many people are struggling as it is with prices of everything and pay is not here in Florida.

Please help us all

Kind Regards

Renee

Hello,

What can I do to help stop Duke from raising their prices yet again! In 2015 my bill was -200 and now it's consistently \$370+ with a 1700ft home, brand new AC and only one person living here! It's insane . Help!!!

PLEASE

Do NOT approve the proposed "\$820 million increase by Duke" where they're asking for rate increase of 27% over the next three years (\$16.48 per month increase in 2025 alone).

Their proposed ROE of 11.5% is well above the national average of approx 9.7%

The CEO's benefit package is OVER \$20million!!

If they need more \$\$, try cutting the salaries of those on top of their own firm and stop taking it from those of us on the bottom – those on fixed incomes!!

Thank you!
