Comments:

Please deny Duke Energy's rate hike request. The economic burden on Florida residents is unrealistic and out of line. They need to be better fiscal managers and not continue to pass their excesses and failures on to their customers.

Comments:

Please do not approve the very high rate and percentage hikes that Duke Energy has requested. They are unreasonably high. This needs to be recalculated to something more reasonable so that we can actually afford to pay our bills.

**Subject:** Duke increases

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Please do not uphold the increases Duke is seeking. Our energy costs have gone through the roof already, and they are currently unaffordable.

In addition, Duke has a monopoly on Pinellas and is one of the least effective energy providers I have ever had, yet we can't go to anyone else so we are stuck with a less effective provider who keeps raising our costs

The proposed rate hike for duke Energy is too much especially for senior citizens. Given high rates for home insurance and car insurance we need relief. Please do not continue to line the pockets of Duke stock holders. Thank you. James F. Anderson Sent from my iPad

**Subject:** Proposed Rate Increase Duke Energy

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I am writing begging you to turn down Duke Energy's request for yet another increase of 27% over the next 3 years. We are seniors barely getting by & are being priced out of our homes. This is nothing more than pure greed for their shareholders.

There is already a huge homeless problem in St. Petersburg & this will only add to more homelessness for the States senior citizens. All of the programs here to help seniors are full with years wait times. Please help us! Please!

Sincerely,

Tim & Diane Brogdon

Please do not allow Duke Energy to raise rates in 2024 in FL.

1. They were allowed to send the increase in fuel costs to us. So I have had to pay my increases and their increases.
2. We paid extra to bury wires. Instead used money for poles above ground.
3. Have programs to help people unable to pay now. So I pay for my bill and someone else's?!
4. Didn't they have profits last year? When is enough?
5. Gas is high. Insurance rates are off any reasonable chart, food is high. How are people supposed to support themselves?
