Comments:

Please do not raise rates above the prevailing 3 yr average rate of inflation. We cannot afford the proposed Duke 3 yr rate increases of: A raised rate of 27% over the next three years, this is a \$16.48 per month increase in 2025 alone. And an increased guaranteed profit (return on equity) up to 11.5%, well above the national average of 9.71%. And in addition add \$2.56 more to the \$30 per month fixed customer charge, which is unrelated to electric usage. This rate hike will burden households and small businesses already struggling with rising costs.
