Subject: RE: Reject Duke Rate Hike Docket #20240025

Good Morning, Ann and Donald Glass.

We will be placing your comments below in consumer correspondence in Docket No. 20240025, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Subject: Reject Duke Rate Hike Docket #20240025

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear sir/madam,

I'm writing to ask that you do not approve the Duke rate hike docket # 20240025. Many of us, including myself, cannot afford our utilities and the cost of living has far exceeded our income. I have a spouse who is disabled and does not qualify for any public assistance -- medicare, medicaid, so I am now forced to work two jobs (full time job remoting while I care for my husband and doing door dash and uber eats deliveries and risking his life by leaving him home alone.

A higher electric bill will only result in this not being an option to work 1 job and I'll be forced to continue to work two jobs to make ends meet.

We are all tapped out. For the past 2 yrs I have thought frequently about relocating to another cheaper state that has reasonable homeowners insurance and utilities. The downside is I'd have to find a new caregiver for

my husband and 10 new specialist doctors that he sees and 1 new primary care doctor and a hospital close to a new home that also is built to address a handicapped person's needs.

The stress is REAL. Stop this madness of rate hikes. Solar is also not an option. It cost money to get solar, and I won't cut down the beautiful oak tree in our yard for something that we would go into debt for given we won't live long enough to see the return on investment for solar.

concerned senior citizens,
