To: Public Service Commissioners,

Re: Duke Energy Proposed Florida Electricity Rate Increases for Residential Service Charges 2025-2027:

Here is a snap shot of what You have approved of every customer service charge rate increase from Duke Energy:

January 2018: \$8.82 per kWh

January 2019: \$9.66 per kWh

January 2020: \$10.52 per kWh

April 2020: \$10.58 per kWh

September 2020: \$10.63 per kWh

January 2021: \$11.40 per kWh

April 2021: \$11.52 per kWh

January 2022: \$12.45 per kWh

September 2023: \$12.89 per kWh

Proposed Florida Electricity Rate Increases for Residential Service Charges 2025-2027:

January 2025: \$14.86 per kWh

January 2026: \$15.13 per kWh

January 2027: \$15.45 per kWh

Deny ALL Proposed Rate Increases for all Utility and Insurance Corporations for 5 years. The Billionaires are doing just fine stealing my money now. All residents of Florida need a customer service rate decrease for 5 years.

PLEASE, STOP Granting all Utility corporations: electric, natural gas, and Insurance Corporations their rate increases. I am retired and on a Fixed Social Security Income and I can NOT AFFORD any more rate increases. You did NOT include NO Social Security Income increase for 2016 and 2017 in your evaluation of socio economics factors do to the republican politicians in the United Stated Congress for millions of retirees which we received a paltry .2% in 2018, .6% in 2019, .7% in 2020, 1.3% in 2021, .75% in 2022, 2.2% in 2023! This does not include inflation of 9.5%, the price increases for food, gas that has gone up 975% in the last 6 years.

The Duke Energy Lobbyist and their made up socio economic factors Does NOTHING for ME only for the Mega Utility, and Insurance Corporations, Wallstreet, Chairman of the Boards, and CEO'S to be approved by Wall Street Analyst's to further EMPTY MY WALLET to FILL THE BILLIONAIRES WALLET.

My Home Owners Insurance has gone up 600% since 2016, WHY? Why do you keep approving their rate increases?

I have been asking you the Public Service Commission for 8 years, WHY cannot I Buy Electrical Power on the Open Market? Many states have these programs to save ME money.
