Please, for the love of God, do NOT allow TECO to raise our rates AGAIN!!! How many times will you allow them to bleed us dry in the name of greed? They "reduce" the rates once in the winter when they know we won't use as much electricity, but the minute the hot weather (hottest on record, again) rolls around, they want multiple increases.

Please. Life is so hard economically these days. I literally cannot afford another increase in anything right now, much less electricity when it's already record-breakingly hot out there.

Think of the people who live here rather than the greedy big businesses. Please.
