For years we power consumers have been installing energy efficient appliances and lighting as good citizens do. But now Teco's Nova Scotia holding company wants to grant power discounts to big box stores and MacDill Air Force Base while our bills go up. This is not what we private consumers expected and we feel betrayed.

Meanwhile Gainesville's public utility appears to be undergoing dissolution at the hands of the State of Florida. This is disgraceful and anti-civic.

We want to rely on the Commission to keep the public trust and to direct some power bill savings to us while providing power utility oversight.

Respectfully yours,

Sally Quinn
