CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

TECO just reduced customer prices a little in the last couple months to now wanting to increase even more starting next year. This madness of price increases has to stop. Our electricity rates have increased easily 30% with very little change in usage over the last 24 months. Taxes and fees that TECO is adding is how they are continually increasing rates. They just keep tacking on more fees. This is ridiculous.

Best,
Dave K.
