CUSTOMER COMMENTS

Most Corp. Mgmts. are forced to find cost-savings but not Duke. Need to require a plan to lower costs by 7-10% within 3 years. Fifth highest cost per kWh in Country - This will never get solved unless Duke is forced to come up with a Nuclear Energy Strategy. Nat. gas is a recipe for eventual higher costs with LNG demand and Russian supply stoppage. Need Nuclear Plants to supply 50% of Florida energy. Funny Duke is extending life on their Nuclear plants outside of Florida. Crystal River should have been salvaged and a new Cooling Tower built. Shame on Duke.

FOLD & TAPE - See back for address

Mgmt has 14 executives earning over \$1 million a year and a former head basketball coach earning 12.5 million. Any email or other correspondence sent to a Florida Public Service Commissioner, or any other public official and/or employee of the PSC, in the transaction of public business is considered a public record and is subject to Florida's Public Records Law. This means that Florida law generally requires the PSC to provide a copy of any such email or correspondence, upon request, for inspection and copying to any Florida citizen or to any member of the media. They need to be scalped paywise.

Need to un-monopolize Duke's Territory via Eminent Domain Takeover. Capital Costs would be cheaper with a Public Non Profit Issuing Bonds Than Duke's high capital cost.
