Customer Comments

1. I understand cost of living has increased, I am not against a raise. But it is too drastic an increase from \$87.80 - \$107.01. Difference of \$18.21.
2. Most of Floridians are on a fixed budget. Kidneys & veterans.
3. what was the % rate of increase maybe considering lower the % of the rate of increase.
4. Consider accepting a little less profit for the business.
5. Seeking more / seeking Government subsidy to augment profit
6. I hope the increase is not too much to affect quality of life

Thanks
