Subject: Duke Rate Increase

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

I would also like to add that the reason for increasing the rates seems pretty vague. It appears that any company asking for a rate increase all use the same terminology. **They all say the exact same thing:**

DEF is requesting a rate increase to recover the cost of operating the Utility and allow the company an opportunity to earn a fair rate of return on its investment

And this is all they have to write to request a rate increase and it gets granted based on that statement? That's pretty crazy that every single one on that link you sent me all say the same exact thing for the increase request. Definitely needs to be denied. All of them. That is not even clear or clarifying anything.

Thank you,

Jana L. Blair
