Dear PSC Member,

As a concerned Duke Energy customer [and AARP member in Florida], I am writing to express my opposition to Duke Energy's proposed rate increase.

I urge you to carefully consider the impact of a rate increase on Florida residents, particularly the most vulnerable among us. With the rising costs of living, including healthcare and housing, a hike in utility rates would decrease our quality of life. As a senior citizen on a fixed income, the increase Duke Energy is requesting will further make living in Florida not sustainable for the large retirement population.

I ask that you prioritize the interests of consumers over corporate greed and reject Duke Energy's proposed increase to the return on equity and fixed customer charge. This is pure

profit that customers should not have to pay for. Now more than ever, it is crucial to ensure that essential services remain affordable and accessible to all Floridians.

Thank you for your careful consideration to this matter.

Sincerely,

Cheryl Bulleman
