Dear PSC Member,

As a concerned TECO customer and retiree, I am writing to express my opposition to TECO's proposed rate increase.

I urge you to carefully consider the impact of a rate increase on Florida residents, particularly the most vulnerable among us. With the rising costs of living, including healthcare and housing, a hike in utility rates would decrease our quality of life. Instead of corporate wealth increases, maybe those millionaires could make do while the rest of us struggle with crushing inflation inflicted on us by this current administration and rubber stamped utility increases. Water, Electric, Trash and Recycling and higher grocery prices with decreasing volume.

I ask that you prioritize the interests of consumers over corporate greed and reject TECO's proposed increase to the return on equity and fixed customer charge. This is pure profit that customers should not have to pay for. Now more than ever, it is crucial to ensure that essential services remain affordable and accessible to all Floridians.

Thank you for your careful consideration to this matter.

Sincerely,

Francis Fe
