Re Docket 20240068-WS
Suggested new rates

I live in Seminole County FL and pay a fair amount for water. Most of my water bill is for landscape irrigation and pool water evaporation. It's not really going into wastewater like taking a bath or washing clothes, at least as I see it.

Residential wastewater service going from 5.59 to 6.48 is an increase of 16%

Water going from 1.90 to 2.33 is an increase of 22%

I don't think these rate increases are adjusted,
they seem too high to me

I hope something can settle out that is a
comprise. I am blessed that we do have good
clean water.

Thanks
