**STAFF'S FIRST DATA REQUEST  
VIA EMAIL**

**Re: Docket No. 20240111-WU - Application for grandfather certificate to operate water utility in Citrus County, by Citrus Waterworks, Inc.**

Dear Mr. Rendell:

By this letter, the Florida Public Service Commission (Commission) staff requests that Citrus Waterworks, Inc. (Citrus or Utility) provide responses to the following data requests:

1. In the Utility's application, it indicates that there are 158 residential connections. As indicated in Exhibit A, there are 170 meters connected for service; however, there are 236 lots within the service area with some residents utilizing private wells.
  - a. Excluding the residents with private wells, how many customer connections can the Utility serve?
  - b. The Utility's application indicates that it serves residential customers only. However, as shown in Exhibit A, the Utility serves one 5/8" x 3/4" general service customer. Please clarify if the Utility serves a general service customer.
2. In the tariff provided with the application, the Utility reflects an initial connection charge for its service availability charge.
  - a. Please explain what tasks are undertaken in terms of establishing service.
  - b. Please separate the cost of the meter from the charge.
3. The Utility's application indicates that its current rates were established by the Citrus County Water and Wastewater Authority's Final Order No. 24-02. However, staff's review of Order 24-02 does not show the Utility's current rates and charges. Please provide proof of the Utility's current rates and charges.

Mr. Troy Rendell
