**PETITION OF MCIMETRO ACCESS TRANSMISSION SERVICES LLC  
D/B/A VERIZON ACCESS TRANSMISSION SERVICES  
FOR EXPEDITED REVIEW OF SOMOS, INC.'S  
DENIAL OF APPLICATION FOR NUMBERING RESOURCES**

MCImetro Access Transmission Services LLC d/b/a Verizon Access Transmission Services (Verizon) requests that the Commission review the denial by Somos, Inc. (Somos) of Verizon's application for a one thousand block of telephone numbers (Thousand Block) in the West Palm Beach, Florida rate center; overturn that decision; and order that a Thousand Block be assigned to Verizon. In support of this Petition Verizon states:

**PARTIES**

1. Verizon is a competitive local exchange telecommunications company that provides local exchange service and exchange access service in Florida.

2. Somos serves as the North American Numbering Plan Administrator, which is responsible for administering and managing the numbering resources in pooling areas. See 47 C.F.R. § 52.20(d).

## JURISDICTION

3. The Commission has jurisdiction of this matter under Section 364.16(7), Florida Statutes.

## BACKGROUND AND REQUEST FOR RELIEF

4. A business customer has requested Verizon to provide 400 consecutive DID telephone numbers in the 561 NPA in the West Palm Beach, Florida rate center. The new telephone lines were requested to complete a new 50 bed hospital at the customer's Lake Worth, Florida location. A confidential copy of the customer's letter explaining the circumstances is attached as Confidential Exhibit 1.

5. Because Verizon does not have 400 consecutive DID telephone numbers that meet the customer's needs, it applied on September 27, 2024 to Somos for a Thousand Block in the West Palm Beach rate center. Verizon's application is included in Exhibit 2.

6. Somos denied Verizon's request on September 27, 2024. The request was denied because Verizon did not meet the FCC's months-to-exhaust and utilization criteria, even though Verizon does not have the numbering resources needed to satisfy its customer's request. The months-to-exhaust and utilization worksheet is included in Exhibit 2 as is Somos' denial of Verizon's application.

7. The FCC has delegated authority to the Commission to address Somos' denial of a request for numbering resources, stating that "[w]e agree ...

that a safety valve mechanism should be established, and we delegate authority to state commissions to hear claims that a safety valve should be applied when the . . . Pooling Administrator denies a specific request for numbering resources.”<sup>1</sup> Moreover, the FCC has determined that “a carrier should be able to get additional numbering resources when there is a verifiable need due to the carrier’s inability to satisfy a specific customer request.” Specifically, states “may grant requests for customers seeking contiguous blocks of numbers.”<sup>2</sup>

8. Based on this authority, the Commission has issued a number of orders addressing denials by Somos that release numbering resources to meet specific customer needs. For example, the Commission ordered NeuStar (which previously had served as the Pooling Administrator) to provide CenturyLink with numbering resources to meet the service requirements of a customer that requested 5,000 consecutive numbers, even though CenturyLink had been unable to satisfy the months-to-exhaust or utilization criteria.<sup>3</sup>

9. Somos’ denial of sufficient numbering resources to Verizon to meet its customer’s request is inconsistent with the FCC’s position that “[u]nder no circumstances should consumers be precluded from receiving telecommunications services of their choice from providers of their choice for want of numbering resources.”<sup>4</sup> By refusing to grant numbering resources

<sup>3</sup> *Petition for Expedited Review of NXX-X Code Denial*, Docket No. 120041-TL, Order No. PSC-12-0089-PAA-TL (March 1, 2012).

<sup>4</sup> *Numbering Resource Optimization*, Second Report and Order and Order on Reconsideration in CC Docket No. 96-98 and CC Docket No. 99-200, and Second Further Notice of Proposed

sufficient to meet the needs of Verizon's customer, Somos is preventing this customer from obtaining the service it wants from the carrier of its choice.

10. Verizon's request for a Thousand Block to meet its customer's request fits squarely within the framework established by the FCC for "safety valve" requests that the Commission is authorized to grant. Verizon respectfully requests that the Commission direct Somos to assign a Thousand Block for the West Palm Beach, Florida rate center so that Verizon can satisfy its customer's request.

WHEREFORE, Verizon respectfully requests that the Commission review Somos' decision to deny Verizon's request for additional numbering resources, overturn that decision, and direct Somos to assign Verizon a Thousand Block in the West Palm Beach, Florida rate center.

Respectfully submitted on October 30, 2024.

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers (SP) supply under "Block Applicant" the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator (PA) section also requires the SP to fill in the PA's name, address, phone, fax and e-mail.

Section 1.2 Service Providers (SP) who need a Thousands-Block (NPA-NXX-X) assignment or for a Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a Part 1 Central Office Code (NPA-NXX) Application needs to also be submitted to the Pooling Administrator (PA). The SP should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the Telcordia Technologies, Inc. dba iconectiv (iconectiv®) LERG™ Routing Guide<sup>xi</sup>. The Operating Company Number (OCN) assigned to the SP and the OCN of its parent company. An OCN is a four-character alphanumeric NECA-assigned Company Code or a four-character alphanumeric identifier assigned by the iconectiv Telecom Routing Administration (TRA). In addition, the number of Thousands-Blocks requested should be supplied. The Switch Identification (Switching Entity/POI). Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider (SP) completes the application should be entered in this section, as well as the Effective Date of the requested Thousands-Block.

Section 1.4 Service Providers (SP) should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS or VoIP. Also indicate the primary type of business in which the Numbering Resource is to be used. SPs may indicate their preference for a particular Thousands-Block, e.g., 321-9XXX, or indicate any Thousands-Blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers (SP) indicate the type of request. Initial requests are for first applications for Thousands-Blocks in a Rate Center, Growth applications are for additional Thousands-Blocks in a Rate Center in which the Applicant already has Numbering Resources, and provide the required evidence as ordered by the FCC.

Section 1.6 Service Providers (SP) shall indicate the updated/current information in regards to contaminated Telephone Numbers (TN) on the Thousands-Block they are

returning to the Industry Inventory Pool. Thousands-Blocks with over 10% contamination (101 TNs or more) shall not be returned to the Industry Inventory Pool except when a SP is exiting the market or is exchanging a Thousands-Block that was identified as being over 10% contaminated. If the Thousands-Block being returned is over 10% contaminated, the Pooling Administrator (PA) shall seek a new Thousands-Block Holder. If question c and/or d have a response of No, the request for return shall be denied.

The Thousands-Block applicant certifies veracity of this form by signing their name, and providing their title and date.
