**STAFF'S FOURTH DATA REQUEST
VIA EMAIL**

Re: Docket No. 20240107-GU - Petition for approval of modifications to cast iron/bare steel pipe replacement rider, by Peoples Gas System, Inc.

Dear Mr. Wahlen:

By this letter, Commission staff respectfully requests that Peoples Gas System, Inc. (Peoples) provide responses to the following data requests by **Friday, December 6, 2024**.

1. Please refer to Peoples' responses to Staff's First Data Request, No. 2, and Staff's Third Data Request, No. 2.
 - a. State if the eight projects identified within staff's first data request are the only projects that will be included in the timeline specified.
 - b. Explain the revision between the estimated cost of the MAOP and Material Verification projects found in Peoples' response to staff's first data request No. 2 and Exhibit 2 provided in Peoples' response to staff's third data request No. 2.
 - c. Provide an estimated project cost of the 2025 Dade City/Pasco Cogen Line MAOP project that separates the MAOP verification project with the scheduled relocation project.

2. Please refer to paragraph 19 of the petition and Peoples' response to Staff's First Data Request, No. 3.

- a. State if the proposed Rule referenced is in effect as of the filing of this data request. If so, provide the date it became effective and explain what differences there are, if any, between the proposed Rule and the final Rule. If the proposed Rule is not currently in effect, when does Peoples estimate that the proposed Rule will come into effect?
- b. Explain the criteria and process by which Peoples determines that a district regulator station is in need of improvements.
- c. Given that the estimated project of \$22.3 million is due to the assumption of half of all existing stations needing some level of improvements, could project costs be changed later?

3. Please refer to paragraph 26 of the petition and Peoples' response to Staff's First Data Request, No. 8.

- a. State the number of pipeline casings to be replaced and the number of casings in need of improvement.
- b. Provide an estimated number of pipeline casings that Peoples will improve or replace annually.

Mr. J. Jeffry Wahlen
