

FLORIDA PUBLIC SERVICE COMMISSION

Item 5

VOTE SHEET

FILED 12/3/2024
DOCUMENT NO. 10087-2024
FPSC - COMMISSION CLERK

December 3, 2024

Docket No. 20240012-EG – Commission review of numeric conservation goals (Florida Power & Light Company).

Issue 10: Is FPL’s proposed HVAC On-Bill option for its existing Residential On-Call program with its associated HVAC Services Agreement (proposed Tariff sheets 9.858 through 9.866) a regulated activity within the jurisdiction of the Commission? If not, should the savings associated with FPL’s HVAC On-Bill option and HVAC Services Agreement be removed from its conservation goals?

Recommendation: No, FPL’s proposed HVAC On-Bill option is not within the jurisdiction of the Commission because it appears to include the sale of HVAC units as defined by Florida law. Additionally, the program would consider profit and loss from such sales in rates charged to customers, and appears to mix non-jurisdictional appliance sales with jurisdictional FEECA investments for ratemaking purposes, which Chapter 366, F.S., appears not to allow. Further, staff recommends that the proposed stipulation offered by FPL does not answer the question at issue. As such, staff recommends that the Commission not approve the proposed stipulation language, and recommends that the savings associated with the HVAC On-Bill option and HVAC Services Agreement be removed from FPL’s conservation goals.

DENIED - Stipulation is approved as presented.

REMARKS/DISSENTING COMMENTS:

Docket No. 20240012-EG – Commission review of numeric conservation goals (Florida Power & Light Company).

(Continued from previous page)

Issue 12: What residential and commercial/industrial summer and winter megawatt (MW) and annual Gigawatt-hour (GWh) goals should be established for the period 2025-2034?

Recommendation: If the Commission approves staff's recommendation on Issue 10, then the Commission should approve conservation goals for FPL as shown in Table 12-1 of staff's memorandum dated November 21, 2024. However, if the Commission does not approve staff's recommendation on Issue 10, no further decision is necessary on Issue 12 due to the stipulated goals already approved by the Commission at the hearing.

MOOT

Issue 14: Should this docket be closed?

Recommendation: Yes. If no party files a timely request for rehearing or an appeal, the docket should be closed. Within 90 days of issuance of the final order, FPL should file a demand-side management plan designed to meet the Utility's approved conservation goals.
