I do not feel there is any proven need for central sewer service. We did not request this sewer service on our island. I do not feel comfortable with a for-profit, private company to own/hold responsibility for what would be a public utility, if implemented. With no experience of operating or maintaining a sewer system, I do not agree with allowing EU LLC to be allowed to do such. The projected costs associated with this project to the individual property owner is absurd. This project will do lasting damage to our native tortoise population, the habitat that they live and thrive in and many other fragile animals that share this same habitat.
