Subject: Duke Energy

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Duke Energy will be requesting a \$21 dollar per 1000 kw increase to pay for hurricane related expenses during 2024. Although they did an extraordinary job in restoring power during and after the hurricanes. A \$21 dollar increase would be a 20% increase on my current power bill. I am on a fixed income and cannot afford this huge increase. Duke is insured just like I am but my insurance doesn't pay for power rate increases. I ask you to please lower the increase. Thank you.
