Docket number: 20240099-EL

To whom it may concern,

In the case of the proposed increasing utilities matter, we would like to raise some concerns. We do not want to experience an increased utilities rate. There is no business plan associated with it and there isn't a good enough reason why the rates should increase. Many people are concerned about this proposal.

Such a rate hike may cause people to seek living spaces in other cities or towns. Jackson county is already a low socio-economic status area. Increasing utilities rates will only serve as an impetus to chase residents away, instead of developing the county into a better living space. Please reconsider this matter and make a change, one that is for the better of the people, our pocket, and the future of Jackson County as related to cost of living, utility rates, and more. I know that the future of Jackson County, and the future of Florida, will be impacted by the proposed utilities rate increase monstrosity.

As a forward-thinking people, please reconsider the utility rate increase proposal and turn it down for the good of our county and for the future generations. Thank you for your careful consideration. May God bless you, God bless our families, and God bless America!

Sincerely,

Becky Collins
