**SECTION 63.71 APPLICATION OF AT&T**

AT&T<sup>1</sup> applies for authority under Section 214(a) of the Communications Act, as amended, 47 U.S.C. § 214, and Section 63.71 of the Federal Communications Commission's ("Commission") rules, 47 C.F.R. § 63.71, to grandfather certain legacy voice services in certain wire centers located in 13 states.

**INTRODUCTION**

Through this application, AT&T seeks to grandfather Remote Call Forwarding Service or TeleBranch (referred to collectively as "RCF" or the "Affected Service") in portions of certain wire centers located in 13 states (the "Affected Service Area"). On February 12, 2024, AT&T

received streamlined approval to grandfather these same services in other wire centers located in six of the 13 states at issue here.<sup>2</sup> As with AT&T's earlier application, grandfathering these outdated services will benefit the public and serve as an important step toward meeting both AT&T's and the Commission's goals of advancing toward next-generation technologies that customers crave. Once the services are grandfathered, all current customers that have not already abandoned the Affected Service will be able to keep their current service.

The benefits of facilitating this transition in these specific wire centers are particularly pronounced given the extreme lack of demand for the Affected Service in the Affected Service Area. In fact, fewer than 0.04% of Living Units in the Affected Service Area subscribe to the Affected Service.<sup>3</sup> And between January 2024 and November 2024, AT&T received *zero* new orders for RCF in over 85% of the wire centers affected by this application.

Businesses in the Affected Service Area have many cost-effective alternative options to choose from as replacements for the Affected Service. These options include remote call forwarding on AT&T Phone for Business – Advanced (“APB-A”), which AT&T specifically designed as a reliable and cost-effective alternative to legacy voice services. APB-A is broadly available throughout the Affected Service Area. AT&T highlighted APB-A as a key alternative to the Affected Service in its 2023 grandfathering application concerning RCF in other wire

<sup>3</sup> Living Units include both residential households and businesses. They are calculated using AT&T's internal databases.

centers.<sup>4</sup> In addition to APB-A, there is an array of competitive voice offerings with call forwarding services that are offered over cable, fiber, and mobile wireless technologies, which most businesses in the Affected Service Area have already selected in lieu of the Affected Service.

### **APPLICATION**

As required by Section 63.71 of the Commission's rules, AT&T provides the following information:

**Name and Address of Carrier:**

BellSouth Telecommunications, LLC, d/b/a AT&T Alabama, AT&T Florida, AT&T Georgia, AT&T Kentucky, AT&T Louisiana, AT&T Mississippi, AT&T North Carolina, AT&T South Carolina, and AT&T Tennessee;

Southwestern Bell Telephone Company, LLC, d/b/a AT&T Arkansas, AT&T Missouri, AT&T Oklahoma, and AT&T Texas.

The address for purposes of this application is:

208 South Akard Street  
Dallas, TX 75202

**Date of Planned Service Grandfathering:**

Effective on or after **March 17, 2025**, pending regulatory approval, AT&T's Affected Service will be grandfathered and will no longer be available for purchase by new customers.

All current customers will be able to keep their current service after that date.

---

<sup>4</sup> See 2023 Grandfathering Application at 14-15.

**Points of Geographic Areas of Service Affected:**

AT&T plans to grandfather the Affected Service in the Affected Service Area in sections of 13 states: Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Missouri, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, and Texas. Exhibit 1 identifies the list of AT&T wire centers in each state that include any service areas that fall within the Affected Service Area.

**Brief Description of Type of Service Affected:**

AT&T plans to grandfather RCF in the Affected Service Area.

RCF permits a customer in one exchange to arrange for calls made to a different telephone number in the same or different exchange (where RCF facilities are available) to be automatically forwarded and automatically billed to the customer's station.<sup>5</sup> In other words, RCF is a service whereby incoming calls to the RCF telephone number are automatically forwarded by the Company's central office equipment to another number designated by the customer.

**Brief Description of the Dates and Method of Notice to All Affected Customers:**

Customer notices were sent via U.S. Mail on January 15, 2025 for Affected Customers of the Affected Service.<sup>6</sup> Copies of this Application are being sent via first class U.S. Mail to the governor, public utility commission, federally recognized tribes (if any) in the Affected Service

Area, and to the Special Assistant for Telecommunications to the Secretary of Defense, as required by 63.71(a) of the Commission's rules.<sup>7</sup>

**Regulatory Classification of Carrier:**

AT&T offers the Affected Service pursuant to non-dominant carrier regulation.

Questions about this application may be addressed to Meredith Williams, AT&T Services, Inc., AVP – Federal Relations, 601 New Jersey Ave. NW, Suite 400, Washington, D.C., (202) 227-9725.

**Public Convenience and Necessity:**

The public convenience and necessity will not be impaired by the grandfathering of these services. The demand for the Affected Service is very low. As noted above, fewer than 0.04% of Living Units in the Affected Service Area subscribe to the Affected Service. Between January 2024 and November 2024, AT&T received *zero* new orders for RCF in over 85% of the wire centers affected by this application. As a result, it is economically inefficient for AT&T to continue to make the Affected Service available for new customers. Once the service is grandfathered, *all current customers will be able to keep their current services*, but prospective customers will no longer be able to purchase them.

Prospective and current customers in the Affected Service Area have access to many readily available and cost-effective alternatives to the Affected Service. As evidenced by the data described above, most businesses have elected to receive voice services from the many alternative providers competing in the area. Customers in the Affected Service Area can

---

<sup>7</sup> Section 63.71(a) directs applicants to submit a copy of the application to the Secretary of Defense, Special Assistant for Telecommunications. However, due to restructuring within the Department of Defense, that position no longer exists. Commission staff has advised that a copy of the application be sent instead to the Department of Defense Chief Information Officer.

receive broadband and voice services from multiple cable and fiber providers, including companies like Comcast and Charter. Those providers' voice offerings include remote-call-forwarding features.<sup>8</sup> Voice options through CMRS providers also allow for remote call forwarding.

Most importantly, AT&T now offers APB-A, which AT&T specifically designed as a cost-effective alternative to legacy voice services. AT&T has devoted substantial resources into developing APB-A, which leverages AT&T's substantial investments in its wireless network to ensure that customers enjoy continued access to dependable and cost-effective voice services. This easy-to-use, competitively priced service is broadly available across the Affected Service Area and provides superior functionality than the Affected Service. Indeed, AT&T highlighted APB-A as a key alternative to the Affected Service in its 2023 Grandfathering Application concerning RCF in other wire centers.<sup>9</sup>

Between APB-A and the many other competitive options available in the Affected Service Area, customers and prospective customers of the Affected Service have a multitude of cost-effective offerings to choose from.

<sup>9</sup> Additional details relating to functionality offered by APB-A are set forth in AT&T's 2023 Grandfathering Application. See 2023 Grandfathering Application at 14-15.

## CONCLUSION

For the reasons identified above, the public convenience and necessity will not be adversely affected by the grandfathering of the Affected Service. AT&T respectfully requests the Commission approve its Section 63.71 Application to grandfather services.

**Important Notice Regarding Remote Call Forwarding and TeleBranch Service**  
***Effective on or after March 17, 2025***

**No changes are being made to your existing service**, subject to the conditions below. However, effective on or after March 17, 2025, pending regulatory approval, Remote Call Forwarding Service and TeleBranch Service (collectively, the "Affected Services") will no longer be available for purchase by new or existing customers in certain parts of our network.<sup>1</sup>

The Affected Services allow for incoming calls to be automatically forwarded by AT&T's central office equipment to another number designated by the customer.

Our records indicate that you currently purchase at least one of the Affected Services within at least one of the AT&T wire centers impacted by these changes.<sup>2</sup> Your affected service telephone number(s) are listed below. As a current AT&T customer, you may retain your existing service(s) subject to the following changes:

- **Effective on or after March 17, 2025, AT&T will no longer allow new orders, renewal of service agreements, or requests for physical changes to your service (including moves to different service addresses), unless your contract expressly allows such orders or changes. Following the expiration of your current term agreement, AT&T will only allow renewal of the service upon terms specified by AT&T, subject to AT&T's right to change the rates, terms, and conditions of the service upon notification.**

Your AT&T Service Representative will contact you to begin discussions regarding alternative solutions that meet your business communication needs.

Sincerely,  
AT&T Business Services

<sup>1</sup> In the areas impacted by this notice, Remote Call Forwarding Service is provided by BellSouth Telecommunications, LLC, d/b/a AT&T Alabama, AT&T Florida, AT&T Georgia, AT&T Kentucky, AT&T Louisiana, AT&T Mississippi, AT&T North Carolina, AT&T South Carolina, and AT&T Tennessee. Telebranch Service is provided by Southwestern Bell Telephone Company, LLC, d/b/a AT&T Arkansas, AT&T Missouri, AT&T Oklahoma, and AT&T Texas.

<sup>2</sup> A list of AT&T wire centers impacted by this notice is provided at the end of this notice.

**AT&T is required by the FCC to provide the following statement:**

The FCC will normally authorize this proposed discontinuance of service (or reduction or impairment) unless it is shown that customers would be unable to receive service or a reasonable substitute from another carrier or that the public convenience and necessity is otherwise adversely affected. If you wish to object, you should file your comments as soon as possible, but no later than 15 days after the Commission releases public notice of the proposed discontinuance. You may file your comments electronically through the FCC's Electronic Comment Filing System using the docket number established in the Commission's public notice for this proceeding, or you may address them to the Federal Communications Commission, Wireline Competition Bureau, Competition Policy Division, Washington, DC 20554, and include in your comments a reference to the section 63.71 Application of BellSouth Telecommunications, LLC, d/b/a AT&T Alabama, AT&T Florida, AT&T Georgia, AT&T Kentucky, AT&T Louisiana, AT&T Mississippi, AT&T North Carolina, AT&T South Carolina, and AT&T Tennessee; Southwestern Bell Telephone Company, LLC, d/b/a AT&T Arkansas, AT&T Missouri, AT&T Oklahoma, and AT&T Texas. Comments should include specific information about the impact of this proposed discontinuation (or reduction or impairment) upon you or your company, including any inability to acquire reasonable substitute service.
