COMPLAINT INFORMATION

Complaint: Improper Billing against Tampa Electric Company
Details:

Word on the street is that TECO intends to increase charges to all customers by \$33 starting in March 2025. Ostensibly to cover Hurricane Milton expenses, or some-such tommyrot. This rate hike should be denied and past rate hikes should be examined, as according to TECO's latest 10-Q filing they appear to have only slightly lower revenues and only slightly higher debts year-over-year. Presumably this rate hike is more about earnings per share for the privately-held shares than it is about anything else. See for yourself:
