Subject: Florida power light

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

This is concerning the electric bill hike rates. Fpl does not have the right to over charge residents because of the Hurricanes. This increase is an overcharge that should not have been approved by PCS. The everyday person can not afford this overcharge. If you look at the list of charges most of the increase is all taxes and fees. This is not a surprise that Florida Power and light does price gouging. Doing this price gouging during an emergency is ridiculous. This State is still in an emergency situation and taking advantage of the residents is despicable!!!!

I'm going to see what can be done about this!!! This should be illegal!!
