Re: Docket No.20250011 -EI

Petition by Florida Power & Light Company for Base Rate Increase

I am writing to demand that the Commission hold in-district hearings regarding Docket No. 20250011 (Petition for Rate Increase by Florida Power & Light Company). The public deserves a clear and fair opportunity to weigh in on this monumental decision.

FPL has already raised rates significantly, with some bills increasing by 60% in just five years. Now, they are requesting nearly \$9 billion more over the next five years. This is an unreasonable ask at a time when Floridians are struggling with the basics.

Moreover, FPL is ranked 52nd out of 53 utilities nationwide for its efforts in efficiency and conservation. The company is doing little to help consumers save, yet it continues to profit at our expense. Approving this hike would reward corporate greed while burdening everyday Floridians even further.

I strongly urge you to reject this request and ensure the voices of your constituents are heard. Holding in-district hearings is essential for accountability.

Sincerely,

Mr Dane Williams
