DOCUMENT NO. 01298-2025
FPSC - COMMISSION CLERK

March 4, 2025

Docket No. 20240163-EG – Petition for approval of proposed demand-side management plan and demand-side management program standards, by Tampa Electric Company.

Issue 1: Should the Commission approve Tampa Electric Company’s proposed DSM Plan and program standards?

Recommendation: Yes. TECO’s DSM Plan is consistent with the proposed programs used to establish its DSM goals and is projected to meet the annual numeric conservation goals approved by the Commission in the 2024 Goalsetting Order. TECO’s proposed DSM Plan is overall cost-effective based upon the Participants, Rate Impact Measure (RIM), and Total Resource Cost (TRC) tests. In addition, Staff has reviewed TECO’s administrative program standards and they appear to be consistent with the Utility’s proposed DSM Plan submitted for approval by the Commission. Therefore, staff recommends that the Commission allow TECO to file for cost recovery of the programs included in its proposed DSM Plan in the Energy Conservation Cost Recovery (ECCR) proceeding. However, TECO must demonstrate that the expenditures to implement its DSM programs are reasonable and prudent in order to recover those expenditures. In addition, staff requests that TECO notify the Commission prior to modifying its DSM Plan or program standards.
