Subject

Duke Energy raising prices

Message

Hello Gov DeSantis,

I am writing because I am concerned about energy prices rising. I don't believe Duke or TECO should be charging customers more because they aren't prepared for storms that occur so often in Florida. It seems to me that they would be better prepared for hurricanes and also storms in the north. Floridians are already strapped and this is just going to hurt us more. Is there anything you can do to keep this from happening?

Respectfully,

Maureen McMillan
