**To:** Office of Commissioner Graham  
**Subject:** Reject FPL's Unprecedented \$10 Billion Rate Hike – Protect Florida Families

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioner Art Graham,

I am writing to strongly urge you to reject Florida Power and Light's (FPL) proposed \$10 billion rate hike—the largest in U.S. history. Approving this increase would be a devastating blow to Florida families, many of whom are already struggling with rising living costs. This past year, this Commission has already failed residents by allowing TECO's rate hikes, and we cannot afford another reckless decision that prioritizes corporate profits over public well-being. Electricity is not a luxury—it is a life-saving necessity in Florida. With extreme heat, hurricanes, and severe weather events, access to affordable power is essential for survival. A rate increase of this magnitude would force seniors, low-income families, and working-class residents to choose between paying their electric bills and affording food, rent, or medical care. No one should have to make such impossible choices just to keep the lights on. Beyond the financial hardship, this increase also carries serious environmental consequences. Instead of investing in clean, affordable renewable energy, FPL continues to expand its reliance on fossil fuels, worsening extreme weather patterns and increasing pollution. These impacts disproportionately harm low-income communities and communities of color, who already experience higher energy burdens and environmental health risks. If FPL truly needed more funding, it should focus on sustainable energy solutions, not passing costs onto struggling residents. The Florida Public Service Commission has a responsibility to serve the public, not corporate monopolies. FPL is a monopoly, meaning Floridians have no choice but to pay whatever rates are approved. If this rate hike is allowed, it will set a dangerous precedent, opening the door for further unchecked increases that will push even more families into a financial crisis. I urge you to reject this historic \$10 billion rate hike and stand with the people of Florida. The residents of this state deserve fair and affordable electricity—not price gouging from utility giants.

Sincerely,  
Mrs. Savannah Williams  
739 44th St West Palm Beach, FL 33407-3858 Savsmith918@gmail.com

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Commissioner Art Graham,

Adam Teitzman, Commission Clerk  
Division of Commission Clerk and Administrative Services Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, FL 32399-0850

Re: Docket No.20250011 -EI

Petition by Florida Power & Light Company for Base Rate Increase

The people can only take so much. I will remember the outcome of this come election season and implore you to side with those you represent not a monopoly.

I am writing to formally request that The Commission hold in-district hearings regarding Docket No. 20250011 (Petition for Rate Increase by Florida Power & Light Company) to ensure that the public has a fair opportunity to weigh in on this critical decision.

Some FPL customers have already seen their bills increase by 60% in the last five years, and now the company is asking to increase rates by almost \$9 billion over the next five years, all while Floridians struggle to afford basic necessities. FPL is ranked 52 out of 53 by the American Council for an Energy Efficient Economy of utilities nationwide in terms of helping customers reduce power bills with efficiency and conservation programs. Approving this rate hike would only reward corporate greed at the expense of millions of hard-working Floridians.

I urge you to reject this request to ensure that consumers, not corporate profits, remain your priority. Holding in-district hearings will allow impacted residents to voice their concerns and hold FPL accountable. I appreciate your attention to this matter and look forward to your response.

Sincerely,  
Miss Lauren Gregory

If FPL truly needed more funding, it should focus on sustainable energy solutions, not passing costs onto struggling residents. The Florida Public Service Commission has a responsibility to serve the public, not corporate monopolies. FPL is a monopoly, meaning Floridians have no choice but to pay whatever rates are approved. If this rate hike is allowed, it will set a dangerous precedent, opening the door for further unchecked increases that will push even more families into a financial crisis. I urge you to reject this historic \$10 billion rate hike and stand with the people of Florida. The residents of this state deserve fair and affordable electricity—not price gouging from utility giants.

Sincerely,  
Mr. Jonathan Barlow  
6540 Berryhill Rd Milton, FL 32570-6819 barlowj1999@gmail.com

**Subject:** Reject FPL's Unprecedented \$10 Billion Rate Hike – Protect Florida Families

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Florida Public Service Commissioner Art Graham,

I am writing to strongly urge you to reject Florida Power and Light's (FPL) proposed \$10 billion rate hike—the largest in U.S. history. Approving this increase would be a devastating blow to Florida families, many of whom are already struggling with rising living costs. This past year, this Commission has already failed residents by allowing TECO's rate hikes, and we cannot afford another reckless decision that prioritizes corporate profits over public well-being.

Electricity is not a luxury—it is a life-saving necessity in Florida. With extreme heat, hurricanes, and severe weather events, access to affordable power is essential for survival. A rate increase of this magnitude would force seniors, low-income families, and working-class residents to choose between paying their electric bills and affording food, rent, or medical care. No one should have to make such impossible choices just to keep the lights on.

Beyond the financial hardship, this increase also carries serious environmental consequences. Instead of investing in clean, affordable renewable energy, FPL continues to expand its reliance on fossil fuels, worsening extreme weather patterns and increasing pollution. These impacts disproportionately harm low-income communities and communities of color, who already experience higher energy burdens and environmental health risks. If FPL truly needed more funding, it should focus on sustainable energy solutions, not passing costs onto struggling residents.

The Florida Public Service Commission has a responsibility to serve the public, not corporate monopolies. FPL is a monopoly, meaning Floridians have no choice but to pay whatever rates are approved. If this rate hike is allowed, it will set a dangerous precedent, opening the door for further unchecked increases that will push even more families into a financial crisis.

I urge you to reject this historic \$10 billion rate hike and stand with the people of Florida. The residents of this state deserve fair and affordable electricity—not price gouging from utility giants.

Sincerely,

Mrs Jill Elmore

**Subject:** Reject FPL's Rate Hike – Hold In-District Hearings for Public Input

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Commissioner Art Graham,

Adam Teitzman, Commission Clerk  
Division of Commission Clerk and Administrative Services Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, FL 32399-0850

Re: Docket No.20250011 -EI

Petition by Florida Power & Light Company for Base Rate Increase

I am writing to formally request that The Commission hold in-district hearings regarding Docket No. 20250011 (Petition for Rate Increase by Florida Power & Light Company) to ensure that the public has a fair opportunity to weigh in on this critical decision.

Some FPL customers have already seen their bills increase by 60% in the last five years, and now the company is asking to increase rates by almost \$9 billion over the next five years, all while Floridians struggle to afford basic necessities. FPL is ranked 52 out of 53 by the American Council for an Energy Efficient Economy of utilities nationwide in terms of helping customers reduce power bills with efficiency and conservation programs. Approving this rate hike would only reward corporate greed at the expense of millions of hard-working Floridians.

I urge you to reject this request to ensure that consumers, not corporate profits, remain your priority. Holding in-district hearings will allow impacted residents to voice their concerns and hold FPL accountable. I appreciate your attention to this matter and look forward to your response.

Sincerely,  
Mrs. Mariana Lopez  
7720 SW 146th Rd Miami, FL 33183-2945
