Hello,

I am writing to request exemption from the Storm Surcharge, this charge for 18 months is forcing additional cost on the consumer that is already digging out of a hole from storm losses. Why should we have pay for our energy infrastructre to be rebuilt? We don't profit off of that, we already have only own losses to pay for. TECO and the government who we PAY so they can PROFIT should be the ones carry this burden. Please advise what is needed from me to exempt my account. Happy to provide my address or TECO account #.

Thanks,
