Dear Commissioners,

Please, Please, Please....Deny EU the sewer application.

You saw our community and heard our pleas to deny this private sewer application. Some of our "island families " will have to move if this happens...they will not be able to afford the impact fees...which, I'm 100% sure will be much, much higher than what EU told you.

We are stewards of our island , ecosystem and care deeply about of wildlife and marine life. We take proper care of our septic tanks and in 10 years....think of the advance in septic tanks technology.....let us switch to state of the art home tanks in the future..... which can't happen if we are all on sewer. Sewer systems pipes can break and spill millions of gallons into the waterways....especially if those pipes are in close proximity and are going over waterways which will be the case for our island.

PLEASE, PLEASE, PLEASE hear our pleas.....we BEG you to deny this application! PLEASE, PLEASE, PLEASE

Kelly Lubē
