Subject: EU Application: Docket # 20240032

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Commissioners,

My name is Martin Mueller. My wife Janet and I are owners of 9400 Little Gasparilla Island Unit C6 which is part of the Hideaway Bay Beach Club condos. (HBBC). I am writing this letter to ask you to deny the application by Environmental Utilities (EU) for a certificate to install sewers on our island.

I do not understand how EU can build a sewer treatment plant on our property and force us to connect when we already have a perfectly good DEP permitted septic treatment plant.

I also do not understand, why since EU's plan now includes building on our property, why we were not notified. How will our units continue to utilize our existing sewage treatment plant?

Our community has suffered greatly due to the impact of Hurricanes Ian, Helene and Milton! To grant EU permission, to further disrupt our community, build something on our land that we do not need, and force us to

use something with unknown cost is wrong.
Please do the right thing and deny this application.

Martin and Janet
HBBC Unit C6
