Hello fellow Commissioner's,

I am a resident of Don Pedro Island and have opposed the sewer since day one. There is no need and no proof of any environmental impacts to the island from septic systems. This is just the same old repeated effort by a private company to make money off sewer. There is just no need !!!

Please take into account how many people have written letters and attended meetings. The response is overwhelming that the residents do not want sewer and there is no need. The environmental impacts of sewer installation and possible future spills would far out way the benefits of installation. Not to mention the financial impact to residents who are already strapped from hurricane after hurricane.

Please deny the application. NOTHING HAS CHAGED SINCE THE PREVIOUS APPLICATIONS !!!!!!!

Thanks,
