Good morning,

I am once again writing to express my strong opposition to the proposed private sewer system for Little Gasparilla. I cannot comprehend how this has gotten to this point. A private, for profit entity with no experience installing or maintaining sewer systems will possibly be granted a no bid contract which forces homeowners to pay massive upfront and ongoing costs for a system no one has asked for and no one has proven a need for. And that doesn't mention the taking of property required to make it happen. My wife and I own two properties on LGI - 8522 and 8526. We will fight this vigorously for as long as it takes and we urge you to deny the application.
