Commissioners & Clerk,

We are very relieved that you voted down the proposed sewer system for the barrier islands. We were in genuine fear that the individual installation cost of the system would force us to sell our place on LGI after more that 30 years. Thank you for listening to your constituents and voting "no". We still don't really understand how a private entity could have taken this so far without any support or demonstrated need from the island communities. Hopefully what is done is done and we don't have to travel this road again.

V/R
