Hi Commission, a simple complaint against the every higher electrical and water rates being charged to the residents of Florida. the little people who teach the children, repair cars , or prepare your food at the local restaurant are having a hard time. Food Security is becoming a real challenge , thrift stores are popping up all across FL and thriving. what I am asking is if you are familiar with the saying 'Pigs get fat but Hogs get Slaughtered'. It is a business saying that means dont be greedy , just stay profitable. i think these agencies are padding their bank accounts annually and the recent rates recieved especially the water commission down in

Hillsborough County was outrageously 'HOG' like. What i am asking is for you all to remember there are hourly workers out here doing things to make your lives better , not looking for a lot, but they certainly or hurting out here with electrical , water, and other basic necessities going up higher and higher. I am asking you all to bring the rates down next year not up. To continue to bring them down. Kindly David
